 9:00 - 1:00 pm • Presentation
Crowne Plaza • Concord, CA • 925-825-7700

COURSE DESCRIPTION:

- Typodonts, inserts, ultrasonic units, and the power of it all in one hands-on interactive workshop. This course is designed to provide the practitioner with ultrasonic instrumentation knowledge, skills, and values to move beyond the competent clinician to master clinician. A discussion of the current literature will provide participants with information about ultrasonic therapy as part of a non-surgical periodontal care plan for improved patient outcomes. This session will provide a hands-on experience with a spectrum of magnetostrictive ultrasonic insert designs focusing on direct application, technique, and instrumentation sequencing. At the conclusion of this workshop, the participant should be able to: Evaluate the periodontal scientific literature applicable to ultrasonic therapy for evidence-based decision making ; Exhibit routine steps and associated skills for the process of effective ultrasonic instrumentation as part of the non-surgical periodontal care plan and Internalize the significance and outcome of ultrasonic instrumentation as part of the master clinician values and skill set. **This workshop is limited to 60 attendees! Register early!**
