**COURSE DESCRIPTION:**

We are excited to have Dr. Peter Jacobsen present a fast paced, interesting and dare-we-say, entertaining presentation on a surprising number of topics that constantly present themselves in daily dental practice including: **Pain Control, Halitosis Control, Oral Herpes Simplex and Fungal Infection Control, and Plaque Control in the management of stage 1 and 2 periodontal disease.** Course will cover Succinct answers to question your patients have and you have about controlling these common oral problems. Dr. Jacobsen has a national reputation as one of the premier specialists in oral medicine and dental pharmacology. You don’t want to miss this practical and useful update.

**LEARNING OBJECTIVES:**

1. You will learn the most effective pain medication regime utilizing Over-the-Counter (OTC) pain medications
2. You will understand the sources of halitosis and how to best manage it.
3. You will learn the most effective OTC and prescription medications for oral viral and fungal infections.
4. You will learn about the new disruptive technology, chelation, and its impact on plaque and early periodontal disease.

**ABOUT OUR SPEAKER:** Dr. Jacobsen’s Ph.D. is in Comparative Pharmacology and Toxicology and he directed the Oral Medicine Clinic at the University of the Pacific Arthur A. Dugoni School of Dentistry for over 30 years. He is a Diplomat of the American Board of Oral Medicine and past Chairperson of the Council on Dental Therapeutics of the ADA. 10 years in a row he has been named as one of the, *Leaders in Continuing Education*, by Dentistry Today magazine. He writes the very practical and useful, *little Dental Drug Booklet*, a succinct handout and reference on commonly prescribed dental medications. He is also one of the principle lecturers in the Registered Dental Hygienist in Alternative Practice program created at the Pacific Dental School and presented by the new California Northstate University School of Dental Medicine RDHAP program.
