COURSE DESCRIPTIONS:

Infection Prevention: This course, which can be specifically tailored to a state or province, will provide current information and guidelines for safe treatment of patients and protection of dental professionals. Infection Control recommendations and guidelines from OSAP, IPAC, CDC and various state as well as provincial resources will be presented and discussed. Infection control review with the office team aids in follow through in the office on a day-to-day basis as well as development of office systems. Each participant will leave with a wealth of references to utilize in the establishment of office protocols. Let's talk about what the recommendations / guidelines advise should be done then evaluate what we are currently doing!

California Practice Act: This course will provide an overview of the California Dental Practice Act and will discuss current changes in the law, risk management, and infection control issues. It will keep you and your staff up-to-date with regulations affecting your practice.

These courses meet the mandatory course requirement by the DHBC and DBC.
